Every Tap, Every Time

BIOCERA

ALKALINE - ANTIOXIDANT WATER

GALENE's BIOCERA Alkaline Antioxidant Water Filter enriches your water with antioxidant properties increasing your pH 8.5-9.5 through natural mineralization and alkalizing process of tap or RO water generated by a Bio-ceramic membrane.

Benefits:

- **Increased body balance and strengthening of Immune system through increased pH level**
- **Reducing risk of hypertension, diabetes and aging by reduction of harmful free radicals through hydrogen rich water**
- **Increased metabolism through the addition of minerals striped away in the RO process**
- **Increased energy, mental clarity and alertness through the increase of negatively charged hydroxyl ions**
- **NSF 42 certified ceramic ball for material requirements**
