GALENE

Clean Water Made Easy

GCES-EASY SYSTEM SERIES

SALT-FREE, ELECTRICITY-FREE AND HASSLE FREE

The GALENE EASY SYSTEM provides low-maintenance whole-home filtration and salt-free scale control:

- Long-lasting, high-efficiency carbon filtration
- Scale inhibitor filter (salt-free technology)
- Optional ultraviolet (UV) system

Benefits:

- No salt or electricity required (optional UV requires power)
- Up to 4 years without maintenance for chlorine filtration
- No sediment filter changes needed
- No wastewater during normal filtration
- Environmentally friendly operation
- Helps reduce exposure to unwanted chemicals
- Improves water clarity, taste, and odor
- Saves water and energy
- Helps reduce calcium and magnesium scale buildup in water heaters, pipes, and other heating devices
- Optional UV helps reduce microorganisms without adding chemicals to the water
- Backwash capable
- **KDF-55:** Placed in the carbon tank's top basket to help reduce chlorine and certain heavy metals, control bacterial growth within the media, and extend carbon life.

Reduces:

- Chlorine / chloramines
- Unwanted color / taste / odor
- Pesticides and insecticides
- Volatile organic compounds (VOCs)
- Scale buildup
