GALENE

Clean Water Every Tap Every Time

GCSFE—SALT FREE ECONOMY

AFFORDABLE WATER SOLUTIONS

The GALENE COMBO SALT-FREE ECONOMY SYSTEM combines whole-home filtration with salt-free scale control:

- Particulate filter / descaler (salt-free technology)
- Carbon filter
- Optional ultraviolet (UV) system

Benefits:

- No salt or electricity required (optional UV requires power)
- Environmentally friendly operation
- Helps reduce exposure to unwanted water contaminants
- Improves water clarity, taste, and odor
- Saves water and energy
- Helps reduce calcium and magnesium scale buildup in water heaters, pipes, and other heating devices
- Optional UV helps reduce microorganisms without adding chemicals to the water
- Low maintenance with manual carbon filter cleaning
- **KDF-55:** Placed in the carbon tank's top basket to help reduce chlorine and certain heavy metals, control bacterial growth within the media, and extend carbon life.

Reduces:

- PFAS / disinfection byproducts (DBPs) / trihalomethanes
- Dirt / rust / sediment
- Chlorine / chloramines
- Unwanted color / taste / odor
- Pesticides and insecticides
- Volatile organic compounds (VOCs)
- Scale buildup
