GALENE

Clean Water Every Tap Every Time

G–WELL SERIES

GALENE's G-Well Series combines whole-home well-water filtration and softening:

- Particulate filter
- Iron / sulfur filter
- Salt-based water softener
- Tannin filter
- Carbon filter
- Optional ultraviolet (UV) system

Benefits:

- Helps reduce hydrogen sulfide (rotten-egg) odors
- Helps reduce iron staining
- Smooth, silky feel on skin and hair
- Helps reduce calcium spotting
- Softer, cleaner-feeling laundry
- Helps reduce exposure to unwanted water contaminants
- Improves water clarity, taste, and odor
- Saves water and energy
- Reduces calcium and magnesium scale buildup in water heaters, pipes, and other heating devices
- Optional UV helps reduce microorganisms without adding chemicals to the water
- **KDF85 pre-filter:** Incorporates KDF85 media ahead of the main filtration stages to help reduce hydrogen sulfide odors and dissolved iron, control bacterial growth within the media, and protect downstream filters.

Reduces:

- Hydrogen sulfide / iron
- Dirt / rust / sediment
- Unwanted color / taste / odor
- Pesticides and insecticides
- Volatile organic compounds (VOCs)
- Scale buildup
