GALENE

Clean Water Every Tap Every Time

GALENE PLUS MEDIA

REMOVES MORE CHEMICALS THAN MOST CARBON FILTERS

The **GALENE PLUS MEDIA** is a unique form of activated carbon. It possesses great mechanical strength and improved adsorption of many chemicals effectively reducing both organic, as well as inorganic contaminants. Its ability to reduce the concentration of many dissolved heavy metals, while giving the benefits of regular Activated Carbon, makes it a superior product compared **to other types of carbon media** available in the market. Its main benefits include the reduction of:

- Fluoride
- Lead
- Arsenic
- Chlorine
- Herbicides, Pesticides, Insecticides
- Improves Taste, Odor and Color

In addition, it has a high removal efficiency of additional heavy metals including:

- Aluminum
- Arsenic
- Barium
- Beryllium
- Boron
- Cadmium
- Chromium
- Cobalt
- Copper
- Iron
- Manganese
- Nickel
- Phosphorous
- Silicon
- Silver
- Strontium
- Thallium
- Titanium
- Zinc

among others...

Our product meets the approval standards of NSF, FDA and Kosher.
